Sustainability.

Sustainability. It's a word we hear mentioned a lot. Most people think it's just about the environment... and while that's definitely a big part of it, it's actually about our society as a whole and how we can all act in ways that will protect the future.

The Red Way is how we're making a positive difference to sustainability by focusing on our people, our communities and our planet and using our voice for good to help the next generations of Reds.

Sustainability isn't just about the big things, it's about making the little changes and adjustments to our daily lives, that over time, will have the greatest impact.

A sustainable future is our greatest goal.

This is the Liverpool Way of doing things. This is **The Red Way**.
